## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-44 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed fails to provide support for the claimed language "(f)or promoting development in a dry or substantially dry process in the absence of thermal dye transfer".

The applicants argue that "the independent claims have been amended to exclude to exclude thermal dye transfer, as clearly supported by the specification. Regarding the method claim, the film of the present claimed invention is scanned, thus including the use of dye transfer receiving layer.

The argument is not persuasive. The applicants are referred to page 59 first paragraph which discloses that "it is possible to transfer the released mobile dyes to a receiver, where they are immobilize in a mordant layer. The image bearing receiving layer can then be scanned.". Therefore, the negative limitation presented in the claims was not supported by the specification as originally, and it raises the issue of new matter.

Art Unit: 1752

3. The rejections over the prior art set forth in the previous office action are withdrawn in view of the newly added limitation which is rejected under 35 USC 112, above. It will be reinstated upon the removal thereof.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
